- 1      Lesson: Agile and Scrum 101
- 1      Lesson: Introduction to SAP Activate
- 1      Lesson: Agile Project Fit

**3**      **Unit 2:      Starting Agile**

- 3      Lesson: Roles and Responsibilities
- 3      Lesson: Agile Project Organization
- 3      Lesson: Prepare Agile Project

**5**      **Unit 3:      Backlog**

- 5      Lesson: Explore Phase Overview
- 5      Lesson: Create Product Backlog
- 5      Lesson: Definition of Ready and Done

**7**      **Unit 4:      Iterative Build**

- 7      Lesson: Release Planning
- 7      Lesson: Release Planning in a Scaled Environment
- 7      Lesson: Sprint Cycle
- 7      Lesson: Testing and Deploy

**9**      **Unit 5:      Summary of Key Points**

- 9      Lesson: Summary and Key Points

**11**      **Unit 6:      Appendices**

- 11      Lesson: Appendices

# Course Overview

## **TARGET AUDIENCE**

This course is intended for the following audiences:

- Project Manager
- Change Manager
- Application Consultant
- Development Consultant
- Technology Consultant
- Business Analyst
- Business Process Architect
- Business Process Owner/Team Lead/Power User
- Enterprise Architect
- Solution Architect

## Lesson 1: Agile and Scrum 101

### Lesson Objectives

After completing this lesson, you will be able to:

- Understand the goals and purpose of Agile
- Understand what Agile is
- Understand what Scrum is and how it works

## Lesson 2: Introduction to SAP Activate

### Lesson Objectives

After completing this lesson, you will be able to:

- Understand how Scrum is applied in SAP projects
- See how Scrum is used in real life SAP projects
- See how Agile is supported through SAP Activate methodology

## Lesson 3: Agile Project Fit

### Lesson Objectives

After completing this lesson, you will be able to:

- Understand when Agile provides good fit to my projects
- Understand how to position Agile in the proposal
- Understand benefits Agile provides to customer

## Lesson 1: Roles and Responsibilities

### Lesson Objectives

After completing this lesson, you will be able to:

- Understand the roles and responsibilities in my Agile project
- Describe the role of the Scrum Master and what the difference is compared with the project manager
- Outline the responsibility of the team and what the Product Owner is responsible for

## Lesson 2: Agile Project Organization

### Lesson Objectives

After completing this lesson, you will be able to:

- How we organize the different scrum teams and how to best organize ourselves
- How to set up an Agile project
- How to scale agile concepts to larger projects

## Lesson 3: Prepare Agile Project

### Lesson Objectives

After completing this lesson, you will be able to:

- Describe what Agile related activities should be completed in the Prepare phase
- Understand how an Agile project views documentation

## Lesson 1: Explore Phase Overview

### Lesson Objectives

After completing this lesson, you will be able to:

- Understand how the Explore phase is structured
- Understand how the team will collect requirements
- Understand how the team will prioritize work

## Lesson 2: Create Product Backlog

### Lesson Objectives

After completing this lesson, you will be able to:

- Understand the value of effective backlog management
- Describe how to capture requirements in SAP projects
- Understand the artefacts of a good backlog structure

## Lesson 3: Definition of Ready and Done

### Lesson Objectives

After completing this lesson, you will be able to:

- Understand when a requirement is Ready to be pulled into a Sprint
- Understand when a requirement is Done and next backlog items can be pulled into the Sprint
- Understand to create an value chain driven End-to-End picture so that the project is able to prioritize the overall backlog

## Lesson 1: Release Planning

### Lesson Objectives

After completing this lesson, you will be able to:

- Plan sprints for a release
- Understand the estimation process
- Plan multiple releases in Agile project

## Lesson 2: Release Planning in a Scaled Environment

### Lesson Objectives

After completing this lesson, you will be able to:

- Plan Release in a Scaled Environment

## Lesson 3: Sprint Cycle

### Lesson Objectives

After completing this lesson, you will be able to:

- Describe how to run Realize phase in iterations
- Understand when we take a User Story into a Sprint and how we measure its completion
- Understand what is expected from team members during the Sprint

## Lesson 4: Testing and Deploy

### Lesson Objectives

After completing this lesson, you will be able to:

- Describe the test activities involved in an Agile project
- Understand how Agile Sprints may be used with Cutover tasks
- Understand how customers optimize the solution operations after the project is complete

## Lesson 1: Summary and Key Points

### Lesson Objectives

After completing this lesson, you will be able to:

- Summarize the SAP Agile project delivery approach
- Find additional material to follow up relating to Agile project delivery

## Lesson 1: Appendices

### Lesson Objectives

After completing this lesson, you will be able to:

- Understand further information regarding Agile and Backlog
