Preparing for Your SAP Live Class

Required Equipment for Your SAP Live Class

- PC or Mac
- Integrated or external web cam
- Headset with integrated mic
- Stable internet connection

You can test if your setup is working correctly by using this link: <https://sap.zoom.us/test>

We recommend that you connect two monitors to your PC so that you can manage the course content more efficiently. This will reduce the need for you to switch (alt+tab) between the applications we use in class.

Getting the Most Out of Your SAP Live Class

- Make sure you have setup and thoroughly tested the SAP Live Class environment and resolved any issues well before the class begins. Refer to the separate instructions that you were sent for setup instructions and support contact information.
- Keep your web cam activated during the training sessions. You can switch it off during breaks if you prefer.
- Use a headset with an integrated mic to ensure a high-quality audio experience for both you and the other participants. Laptop speakers and mic produce poor quality sound and introduce background noise that can disturb the class.
- Make sure you are in a quiet area where you will not be disturbed.
- Be ready to use the mute feature to ensure any background noise does not disturb the class.
- Turn off email, phones, instant messaging tools, and clear other distractions away from your training area.
- Actively participate and prepare to be called on by name.
- Be patient waiting for a response to your chat messages.
- Always ask the instructor for assistance if you need help with an exercise. Don't get left behind.
- Be ready to begin class on time so you do not delay the start of each session.
- During breaks, make sure you take the opportunity to get out of your chair and stretch.
- Please raise any concerns relating to the SAP Live Class experience with your instructor at the time they arise so that they can be quickly addressed.

Contents

vii Course Overview

1 Unit 1: Adjustment of SAP Standard Software

- 1 Lesson: Adjusting SAP Standard Software
- 1 Lesson: Describing Classic Enhancement Types

3 Unit 2: Personalization

- 3 Lesson: Implementing Transaction Variants

5 Unit 3: Enhancement of Dictionary Elements

- 5 Lesson: Enhancing Tables Using Append Structures and Customizing Includes
- 5 Lesson: Enhancing Texts of Data Elements
- 5 Lesson: Enhancing SAP Standard Search Helps
- 5 Lesson: Enhancing Other ABAP Dictionary Objects

7 Unit 4: Customer Exits

- 7 Lesson: Describing Enhancement Projects
- 7 Lesson: Enhancing Programs Using Program Exits
- 7 Lesson: Enhancing Menus Using Menu Exits
- 7 Lesson: Enhancing Screens Using Screen Exits

9 Unit 5: Business Transaction Events

- 9 Lesson: Implementing Business Transaction Events (BTEs)

11 Unit 6: Classic Business Add-Ins

- 11 Lesson: Describing an ABAP Objects Interface
- 11 Lesson: Describing Classic Business Add-Ins (BADIs)
- 11 Lesson: Enhancing Programs Using Classic BADIs
- 11 Lesson: Enhancing Screens Using Classic Business Add-In (BADI) Screen Exits
- 11 Lesson: Explaining Additional Details of Business Add-Ins (BADIs)

13 Unit 7: New Business Add-Ins

- 13 Lesson: Describing the Change from Classic BADIs to New BADIs
- 13 Lesson: Using New Business Add-In (BADI) Program Exits
- 13 Lesson: Using New Business Add-In (BADI) Menu Exits
- 13 Lesson: Using New Business Add-In (BADI) Screen Exits
- 13 Lesson: Using New Business Add-Ins (BADIs)

15	Unit 8:	Explicit Enhancement Options
15		Lesson: Describing the Enhancement Framework
15		Lesson: Using Explicit Enhancements
17	Unit 9:	Implicit Enhancements
17		Lesson: Explaining Implicit Enhancements
17		Lesson: Implementing Implicit Enhancements in Function Modules
17		Lesson: Implementing Implicit Enhancements in Global SAP Classes
17		Lesson: Using Other Implicit Enhancements
17		Lesson: Using Composite Enhancements
19	Unit 10:	Modifications of the SAP Standard Application
19		Lesson: Modifying SAP Standard Software
19		Lesson: Modifying Applications using the Modification Assistant
19		Lesson: Implementing User Exits
19		Lesson: Adjusting Modifications
21	Unit 11:	Adjustment of Enhancement Implementations
21		Lesson: Adjusting Enhancement Implementations
23	Unit 12:	The Switch Framework
23		Lesson: Using the Switch Framework
23		Lesson: Resolving Conflicts Using the Switch Framework
25	Unit 13:	Options for SAP Standard Software Changes
25		Lesson: Comparing Options for Changes to SAP Standard Software
27	Unit 14:	Legacy Enhancement Techniques
27		Lesson: Describing Legacy Enhancement Techniques

Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Developer
- Development Consultant

Lesson 1: Adjusting SAP Standard Software

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the options for adjusting the SAP standard system

Lesson 2: Describing Classic Enhancement Types

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the enhancement types

Lesson 1: Implementing Transaction Variants

Lesson Objectives

After completing this lesson, you will be able to:

- Personalize transactions
- Personalize transactions using variants
- Personalize transactions using GuiXT

Lesson 1: Enhancing Tables Using Append Structures and Customizing Includes

Lesson Objectives

After completing this lesson, you will be able to:

- Enhance tables by using append structures
- Enhance tables by using Customizing Includes

Lesson 2: Enhancing Texts of Data Elements

Lesson Objectives

After completing this lesson, you will be able to:

- Enhance texts of data elements

Lesson 3: Enhancing SAP Standard Search Helps

Lesson Objectives

After completing this lesson, you will be able to:

- Enhance standard search helps with append search helps

Lesson 4: Enhancing Other ABAP Dictionary Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Create extension indexes for SAP tables
- Add additional fixed values to SAP domains without making modifications

Lesson 1: Describing Enhancement Projects

Lesson Objectives

After completing this lesson, you will be able to:

- Describe enhancement projects
- Create enhancement projects

Lesson 2: Enhancing Programs Using Program Exits

Lesson Objectives

After completing this lesson, you will be able to:

- Enhance code using program exits
- Implement exit function groups

Lesson 3: Enhancing Menus Using Menu Exits

Lesson Objectives

After completing this lesson, you will be able to:

- Enhance menus using menu exits

Lesson 4: Enhancing Screens Using Screen Exits

Lesson Objectives

After completing this lesson, you will be able to:

- Enhance screens using screen exits

Lesson 1: Implementing Business Transaction Events (BTEs)

Lesson Objectives

After completing this lesson, you will be able to:

- Explain business transaction events
- Implement Business Transaction Events

Lesson 1: Describing an ABAP Objects Interface

Lesson Objectives

After completing this lesson, you will be able to:

- Describe an ABAP Objects interface

Lesson 2: Describing Classic Business Add-Ins (BAdIs)

Lesson Objectives

After completing this lesson, you will be able to:

- Describe classic Business Add-Ins (BAdIs)

Lesson 3: Enhancing Programs Using Classic BAdIs

Lesson Objectives

After completing this lesson, you will be able to:

- Enhance programs by using classic BAdIs

Lesson 4: Enhancing Screens Using Classic Business Add-In (BAdI) Screen Exits

Lesson Objectives

After completing this lesson, you will be able to:

- Describe classic BAdI screen exits
- Implement classic BAdI screen exits

Lesson 5: Explaining Additional Details of Business Add-Ins (BAdIs)

Lesson Objectives

After completing this lesson, you will be able to:

- Explain additional details of BAdIs

Lesson 1: Describing the Change from Classic BAdIs to New BAdIs

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the Integration of BAdIs into the Enhancement Framework

Lesson 2: Using New Business Add-In (BAdI) Program Exits

Lesson Objectives

After completing this lesson, you will be able to:

- Implement New BAdI Program Exits

Lesson 3: Using New Business Add-In (BAdI) Menu Exits

Lesson Objectives

After completing this lesson, you will be able to:

- Implement New BAdI Menu Exits

Lesson 4: Using New Business Add-In (BAdI) Screen Exits

Lesson Objectives

After completing this lesson, you will be able to:

- Implement New BAdI Screen Exits

Lesson 5: Using New Business Add-Ins (BAdIs)

Lesson Objectives

After completing this lesson, you will be able to:

- Define New BAdIs

Lesson 1: Describing the Enhancement Framework

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the enhancement options available in the Enhancement Framework
- Describe Enhancement Spots

Lesson 2: Using Explicit Enhancements

Lesson Objectives

After completing this lesson, you will be able to:

- Use explicit enhancements

Lesson 1: Explaining Implicit Enhancements

Lesson Objectives

After completing this lesson, you will be able to:

- Describe implicit enhancements

Lesson 2: Implementing Implicit Enhancements in Function Modules

Lesson Objectives

After completing this lesson, you will be able to:

- Use Implicit Enhancements in SAP function modules

Lesson 3: Implementing Implicit Enhancements in Global SAP Classes

Lesson Objectives

After completing this lesson, you will be able to:

- Use implicit enhancements in global SAP classes

Lesson 4: Using Other Implicit Enhancements

Lesson Objectives

After completing this lesson, you will be able to:

- Use implicit enhancements in local SAP classes
- Use implicit enhancements in SAP programs
- Use Implicit Enhancements in existing enhancement implementations

Lesson 5: Using Composite Enhancements

Lesson Objectives

After completing this lesson, you will be able to:

- Use composite enhancements

Lesson 1: Modifying SAP Standard Software

Lesson Objectives

After completing this lesson, you will be able to:

- Implement modifications

Lesson 2: Modifying Applications using the Modification Assistant

Lesson Objectives

After completing this lesson, you will be able to:

- Implement modifications using the Modification Assistant

Lesson 3: Implementing User Exits

Lesson Objectives

After completing this lesson, you will be able to:

- Implement modifications using user exits

Lesson 4: Adjusting Modifications

Lesson Objectives

After completing this lesson, you will be able to:

- Adjust modifications

Lesson 1: Adjusting Enhancement Implementations

Lesson Objectives

After completing this lesson, you will be able to:

- Adjust an enhancement implementation
- Migrate Classic BAAdIs

Lesson 1: Using the Switch Framework

Lesson Objectives

After completing this lesson, you will be able to:

- Use the Switch Framework to activate and deactivate enhancement implementations

Lesson 2: Resolving Conflicts Using the Switch Framework

Lesson Objectives

After completing this lesson, you will be able to:

- Resolve Conflicts Using Conflict Switches

Lesson 1: Comparing Options for Changes to SAP Standard Software

Lesson Objectives

After completing this lesson, you will be able to:

- Describe when different change techniques should be used

Lesson 1: Describing Legacy Enhancement Techniques

Lesson Objectives

After completing this lesson, you will be able to:

- Identify legacy enhancement techniques
