vii Course Overview

1 Unit 1: Data Archiving Process

1 Lesson: Describing the Data Archiving Process

1 Lesson: Explaining ILM and the Process of Data Archiving with ILM

3 Unit 2: ADK Development Tools

3 Lesson: Listing the ADK Development Tools

5 Unit 3: ILM Objects

5 Lesson: ILM-Objects, Introduction

5 Lesson: Creating Customer-Specific ILM-Objects

5 Lesson: Explaining How Customers Can Enhance an ILM Object Without Making Modifications

5 Lesson: Testing ILM-Objects

7 Unit 4: Archiving Object and the Write and Delete Program

7 Lesson: Naming the Programs that are in the Scope of an Archiving Object

7 Lesson: Explaining Delete Programs

7 Lesson: Creating an Archiving Object

7 Lesson: Enhancing a Standard Archiving Object

9 Unit 5: Sequential Read Programs

9 Lesson: Creating a Sequential Read Program

9 Lesson: Reading out Data that Archiving Classes Wrote to the Archive

11 Unit 6: Index-based Read Programs

11 Lesson: Creating Field Catalogs in SAP AS

11 Lesson: Writing Index-Based Read Programs or Add Index Accesses to Existing Ones

11 Lesson: Displaying Optically Archived Original Documents

13 Unit 7: Data Destruction Objects

13 Lesson: Naming the Programs Contained in the Data Destruction Object

15 Unit 8: Appendix

15 Lesson: Creating Business Views in SAP AS

Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Project Manager
- Application Consultant
- Development Consultant
- Business Process Architect
- Business Process Owner/Team Lead/Power User
- Developer
- Enterprise Architect
- Industry Specialist
- Solution Architect
- System Architect

Lesson 1: Describing the Data Archiving Process

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the data archiving process
- Explain the components involved

Lesson 2: Explaining ILM and the Process of Data Archiving with ILM

Lesson Objectives

After completing this lesson, you will be able to:

- Provide an overview of SAP Information Lifecycle Management
- Name the drivers and problems related to Information Lifecycle Management (ILM)
- List the components of Information Lifecycle Management
- Decide which ILM functionality should be used for your objects

Lesson 1: Listing the ADK Development Tools

Lesson Objectives

After completing this lesson, you will be able to:

- List the components of the ADK programming interface
- Explore the advantages and usage of archiving classes

Lesson 1: ILM-Objects, Introduction

Lesson Objectives

After completing this lesson, you will be able to:

- List the components of an ILM-enabled archiving object
- Describe what an ILM object is and where and how it is defined

Lesson 2: Creating Customer-Specific ILM-Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the mandatory and optional entries

Lesson 3: Explaining How Customers Can Enhance an ILM Object Without Making Modifications

Lesson Objectives

After completing this lesson, you will be able to:

- Explain how customers can enhance an ILM object without making modifications

Lesson 4: Testing ILM-Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Test ILM-Objects

Lesson 1: Naming the Programs that are in the Scope of an Archiving Object

Lesson Objectives

After completing this lesson, you will be able to:

- Name the programs that are in the scope of an archiving object
- Program the structure and logic of archive write programs
- Describe the steps necessary to enable existing archive write programs for ILM

Lesson 2: Explaining Delete Programs

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the logic of delete programs
- Create delete programs

Lesson 3: Creating an Archiving Object

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the procedure for creating a new archiving object
- Get to know the components of an archiving object

Lesson 4: Enhancing a Standard Archiving Object

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the procedure for enhancing a standard archiving object

Lesson 1: Creating a Sequential Read Program

Lesson Objectives

After completing this lesson, you will be able to:

- Create a sequential read program

Lesson 2: Reading out Data that Archiving Classes Wrote to the Archive

Lesson Objectives

After completing this lesson, you will be able to:

- Read out data that archiving classes wrote to the archive in a read program

Lesson 1: Creating Field Catalogs in SAP AS

Lesson Objectives

After completing this lesson, you will be able to:

- Create field catalogs in SAP AS

Lesson 2: Writing Index-Based Read Programs or Add Index Accesses to Existing Ones

Lesson Objectives

After completing this lesson, you will be able to:

- Write index-based read programs or add index accesses to existing ones

Lesson 3: Displaying Optically Archived Original Documents

Lesson Objectives

After completing this lesson, you will be able to:

- Display optically archived original documents

Lesson 1: Naming the Programs Contained in the Data Destruction Object

Lesson Objectives

After completing this lesson, you will be able to:

- Name the programs contained in a data destruction object
- Create the program for a data destruction object
- Use transaction ILM_DESTRUCTION to work with data destruction objects

Lesson 1: Creating Business Views in SAP AS

Lesson Objectives

After completing this lesson, you will be able to:

- Create Business Views in SAP AS
