vii Course Overview

1 Unit 1: Describing the Integration Strategy of SAP

- 1 Lesson: Presenting the SAP Integration Strategy
- 1 Lesson: Introducing the Clean Core Approach

3 Unit 2: Introducing SAP Integration Suite

- 3 Lesson: Discussing Distributed Architectures and their Challenges
- 3 Lesson: Understanding the SAP Integration Suite
- 3 Lesson: Outlining the Constraints in using the SAP Integration Suite
- 3 Lesson: Exploring the Capabilities of SAP Integration Suite

5 Unit 3: Understanding API Management

- 5 Lesson: Understanding API Management
- 5 Lesson: Understanding the Components of API Management
- 5 Lesson: Understanding API Lifecycle
- 5 Lesson: Building API Provider
- 5 Lesson: Building API Proxies
- 5 Lesson: Using Policies
- 6 Lesson: Editing APIs
- 6 Lesson: Analyzing API Proxies Calls
- 6 Lesson: Deploying a Product to Developer Hub
- 6 Lesson: Working with Developer Hub
- 6 Lesson: Working with SAP Graph

7 Unit 4: Implementing Cloud Integration

- 7 Lesson: Introducing the Basic Concepts
- 7 Lesson: Employing Connectivity Options
- 7 Lesson: Understanding the Operating Model in SAP Integration Projects
- 7 Lesson: Understanding System Scope in the Cloud Foundry Environment
- 7 Lesson: Defining Design Guidelines
- 7 Lesson: Developing Integration Content
- 8 Lesson: Monitoring and Logging Message
- 8 Lesson: Utilizing the Camel Data Model and Simple Expression Language
- 8 Lesson: Understanding the Integration Flow

9 Unit 5: Exploring Event Mesh

9	Lesson: Introducing Event-Driven Architectures
9	Lesson: Understanding Direct and Guaranteed Messaging
9	Lesson: Introducing SAP Integration Suite, Advanced Event Mesh
9	Lesson: Discussing Event Mesh Standalone
9	Lesson: Understanding Event Mesh EMIS

Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Application Consultant
- Development Consultant
- Technology Consultant
- Industry / Business Analyst Consultant
- Super / Key / Power User
- Business Process Architect
- Business Process Owner/Team Lead/Power User
- Developer
- Solution Architect
- System Architect

UNIT 1

Describing the Integration Strategy of SAP

Lesson 1: Presenting the SAP Integration Strategy

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the distributed architecture.
- Summarize the exercise scenario.

Lesson 2: Introducing the Clean Core Approach

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the Clean Core Approach.

Lesson 1: Discussing Distributed Architectures and their Challenges

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the significance of integration within the realm of SAP BTP.

Lesson 2: Understanding the SAP Integration Suite

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the SAP Integration Suite.

Lesson 3: Outlining the Constraints in using the SAP Integration Suite

Lesson Objectives

After completing this lesson, you will be able to:

- Explore API management.
- Identify the constraints in using the SAP Integration Suite.

Lesson 4: Exploring the Capabilities of SAP Integration Suite

Lesson Objectives

After completing this lesson, you will be able to:

- Capabilities of SAP Integration Suite.

Lesson 1: Understanding API Management

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the key features of SAP API Management.

Lesson 2: Understanding the Components of API Management

Lesson Objectives

After completing this lesson, you will be able to:

- Exploring the API Management Components.

Lesson 3: Understanding API Lifecycle

Lesson Objectives

After completing this lesson, you will be able to:

- Developing APIs.

Lesson 4: Building API Provider

Lesson Objectives

After completing this lesson, you will be able to:

- Create an API provider using the SAP Integration Suite.

Lesson 5: Building API Proxies

Lesson Objectives

After completing this lesson, you will be able to:

- Create an API based on the API provider.

Lesson 6: Using Policies

Lesson Objectives

After completing this lesson, you will be able to:

- Use policies.

Lesson 7: Editing APIs

Lesson Objectives

After completing this lesson, you will be able to:

- Edit APIs.

Lesson 8: Analyzing API Proxies Calls

Lesson Objectives

After completing this lesson, you will be able to:

- Use different ways to log health data and messages, displayed in a monitor.

Lesson 9: Deploying a Product to Developer Hub

Lesson Objectives

After completing this lesson, you will be able to:

- Create a product.

Lesson 10: Working with Developer Hub

Lesson Objectives

After completing this lesson, you will be able to:

- Using Developer Hub.

Lesson 11: Working with SAP Graph

Lesson Objectives

After completing this lesson, you will be able to:

- Develop SAP Graph.

Lesson 1: Introducing the Basic Concepts

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the integration flow process.

Lesson 2: Employing Connectivity Options

Lesson Objectives

After completing this lesson, you will be able to:

- Use connectivity options.

Lesson 3: Understanding the Operating Model in SAP Integration Projects

Lesson Objectives

After completing this lesson, you will be able to:

- Use message monitoring and logging.

Lesson 4: Understanding System Scope in the Cloud Foundry Environment

Lesson Objectives

After completing this lesson, you will be able to:

- Explain system scope in the Cloud Foundry Environment.

Lesson 5: Defining Design Guidelines

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the design guidelines.

Lesson 6: Developing Integration Content

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the development cycle.

Lesson 7: Monitoring and Logging Message

Lesson Objectives

After completing this lesson, you will be able to:

- Use Message Monitoring and Logging.

Lesson 8: Utilizing the Camel Data Model and Simple Expression Language

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the Camel data model and simple expression language.

Lesson 9: Understanding the Integration Flow

Lesson Objectives

After completing this lesson, you will be able to:

- Define the Integration Flow.
- Use the Integration package and Integration Flows.
- Use Postman Collection.
- Clarification of Individual USERID for the Exercises.
- Use Generic Receiver.
- Use a converter.
- Use mapping.

Lesson 1: Introducing Event-Driven Architectures

Lesson Objectives

After completing this lesson, you will be able to:

- Identify key benefits of Event-Driven Architectures.

Lesson 2: Understanding Direct and Guaranteed Messaging

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the key components and patterns of Event-Driven Architecture.
- Differentiate between direct messaging and guaranteed message delivery.

Lesson 3: Introducing SAP Integration Suite, Advanced Event Mesh

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the architecture and key features of SAP Integration Suite, Advanced Event Mesh.
- Identify deployment options and use cases for SAP Integration Suite, Advanced Event Mesh.

Lesson 4: Discussing Event Mesh Standalone

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the fundamental concepts and key features of SAP Event Mesh.
- Explore practical use cases of SAP Event Mesh.

Lesson 5: Understanding Event Mesh EMIS

Lesson Objectives

After completing this lesson, you will be able to:

- Identify the functionality and patterns of SAP Event Mesh.
