## **Contents**

vii	Course Overview			
1	Unit 1:	SAP HANA High Availability Features Overview		
1		Lesson: Explaining the SAP HANA High Availability Features		
1		Lesson: Exploring Disaster Recovery in SAP HANA		
1		Lesson: Exploring Fault Recovery in SAP HANA		
3	Unit 2:	SAP HANA Fault Tolerance		
3		Lesson: Installing High Availability SAP HANA		
3		Lesson: Explaining SAP HANA Scale-Out		
3		Lesson: Partitioning Tables		
3		Lesson: Performing Table Placements		
3		Lesson: Reconfiguring a Scale-Out SAP HANA System		
3		Lesson: Understanding Failure of a SAP HANA Worker Node		
4		Lesson: Understanding Failure of the Coordinator Node		
4		Lesson: Removing a Host from a Scale-Out System		
4		Lesson: Adding a Host to a Scale-Out System		
5	Unit 3:	SAP HANA Disaster Tolerance		
5		Lesson: Explaining SAP HANA Storage Replication		
5		Lesson: Explaining SAP HANA System Replication		
5		Lesson: Setting up SAP HANA System Replication		
5		Lesson: Creating Tenant Databases in a System Replication Scenario		
5		Lesson: Performing a Takeover on the Secondary System		
5		Lesson: Setting up Active/Active System Replication		
6		Lesson: Setting up SAP HANA System Replication with Secondary Time Travel		
6		Lesson: Explaining Zero Downtime Maintenance		
6		Lesson: Introducing Multitier and Multitarget System Replication		
7	Unit 4:	SAP HANA Tenant Replication		
7		Lesson: Explaining Tenant Replication		
9	Unit 5:	Appendix: HANA Additional Scripts		
9		Lesson: Appendix: Using Python Support Scripts in SAP HANA		
9		Lesson: Appendix: Reinitializing a Non-Recoverable System		
		Database		

## **Course Overview**

#### **TARGET AUDIENCE**

This course is intended for the following audiences:

- Technology Consultant
- Database Administrator
- System Administrator

## **UNIT 1** SAP HANA High Availability **Features Overview**

### **Lesson 1: Explaining the SAP HANA High Availability Features**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

Understand the different SAP HANA high availability features

## **Lesson 2: Exploring Disaster Recovery in SAP HANA**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Describe the disaster recovery features in SAP HANA

### **Lesson 3: Exploring Fault Recovery in SAP HANA**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

· Explain the fault recovery features of SAP HANA

## **UNIT 2 SAP HANA Fault Tolerance**

## **Lesson 1: Installing High Availability SAP HANA**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

Install a high availability SAP HANA system

### **Lesson 2: Explaining SAP HANA Scale-Out**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Introducing SAP HANA scale-out systems

### **Lesson 3: Partitioning Tables**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

· Perform table partitioning tasks

## **Lesson 4: Performing Table Placements**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

Perform table placement tasks

## Lesson 5: Reconfiguring a Scale-Out SAP HANA System

#### **Lesson Objectives**

After completing this lesson, you will be able to:

Reconfigure a scale-out SAP HANA system

## **Lesson 6: Understanding Failure of a SAP HANA Worker Node**

**Lesson Objectives** 

After completing this lesson, you will be able to:

• Understand what happens during a failure of a worker node

## **Lesson 7: Understanding Failure of the Coordinator Node**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Understand what happens during a failure of the coordinator node

## Lesson 8: Removing a Host from a Scale-Out System

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Remove a host from a scale-out system

### Lesson 9: Adding a Host to a Scale-Out System

#### **Lesson Objectives**

After completing this lesson, you will be able to:

· Add a host to a scale-out system

## **UNIT 3 SAP HANA Disaster Tolerance**

## **Lesson 1: Explaining SAP HANA Storage Replication**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

Explain SAP HANA storage replication

### Lesson 2: Explaining SAP HANA System Replication

#### **Lesson Objectives**

After completing this lesson, you will be able to:

· Explain SAP HANA system replication

### **Lesson 3: Setting up SAP HANA System Replication**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Set up SAP HANA system replication

### **Lesson 4: Creating Tenant Databases in a System Replication** Scenario

#### Lesson Objectives

After completing this lesson, you will be able to:

• Create tenant databases in a system replication scenario

## **Lesson 5: Performing a Takeover on the Secondary System**

#### Lesson Objectives

After completing this lesson, you will be able to:

• Perform a takeover on the secondary system

## **Lesson 6: Setting up Active/Active System Replication**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Set up Active/Active SAP HANA system replication

## **Lesson 7: Setting up SAP HANA System Replication with Secondary Time Travel**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Set up SAP HANA system replication with Secondary Time Travel

### **Lesson 8: Explaining Zero Downtime Maintenance**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Explain Zero Downtime Maintenance

## Lesson 9: Introducing Multitier and Multitarget System Replication

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Explain multitier and multitarget system replication

## **UNIT 4 SAP HANA Tenant Replication**

## **Lesson 1: Explaining Tenant Replication**

## **Lesson Objectives**

After completing this lesson, you will be able to:

• Understand the setup of tenant replication

UNIT 5

# Appendix: HANA Additional Scripts

## **Lesson 1: Appendix: Using Python Support Scripts in SAP HANA**

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Understand the Python support scripts used in SAP HANA

## Lesson 2: Appendix: Reinitializing a Non-Recoverable System Database

#### **Lesson Objectives**

After completing this lesson, you will be able to:

• Reinitialize a non-recoverable system database
