Contents

ix **Course Overview**

1 **Unit 1: Introduction to Planning Processes**

- 1 Lesson: Introduction to Integrated Planning
- 1 Lesson: Process Coverage and Planning Levels
- 1 Lesson: SAP Best Practices and Model Entities for SAP IBP
- 1 Lesson: Harmonized Planning Area
- 1 Lesson: Benefits and Key Performance Indicators (KPIs) Improved through SAP Integrated Business Planning

3 **Unit 2: Introduction to SAP Integrated Business Planning**

- 3 Lesson: Modules Overview
- 3 Lesson: A Double-Click on Each of the Modules
- 3 Lesson: Challenges and Solutions
- 3 Lesson: Example Network Overview

5 **Unit 3: Exploring the Tools & Features in SAP IBP**

- 5 Lesson: Navigating the basics of SAP Fiori Launchpad
- 5 Lesson: Experimenting with basic toolbar and functionality settings in the SAP IBP Add-in for Microsoft Excel
- 5 Lesson: Modifying planning view options displayed within SAP IBP Add-In for Microsoft Excel Planning View.
- 5 Lesson: Organizing and managing Master Data with SAP IBP
- 5 Lesson: Utilizing the Analytics and Dashboards to provide reports and KPIs.
- 6 Lesson: Exploring Analytics Stories App
- 6 Lesson: Breaking down the various functionalities of the Planner Workspaces App

7 **Unit 4: Discovering SAP IBP for demand**

- 7 Lesson: Introducing SAP IBP for demand
- 7 Lesson: Outlining Demand Planning
- 7 Lesson: Generating a Statistical Forecast
- 7 Lesson: Explaining Planning Adjustments and Consensus
- 7 Lesson: Introducing Demand Sensing

9	Unit 5: Discovering SAP IBP for inventory
9	Lesson: Defining Inventory Planning and Optimization
9	Lesson: Understanding Inventory Planning
9	Lesson: Understanding Inventory Optimization
9	Lesson: Discovering Added value to your Integrated Business Planning through Inventory Optimization
9	Lesson: Understanding Key Differentiators of SAP IBP for inventory
10	Lesson: Implementing SAP IBP for inventory within SAP IBP
10	Lesson: Utilizing Inventory Planning and Optimization
11	Unit 6: Discovering SAP IBP for sales and operations
11	Lesson: Optimizing Supply Chain Planning Efficiency with SAP Integrated Business Planning
11	Lesson: Implementing Time-Series-Based Supply Planning with SAP IBP
11	Lesson: Demand Planning capabilities with SAP IBP for sales and operations
11	Lesson: Supply Planning with SAP IBP for sales and operations
13	Unit 7: Discovering SAP IBP for response and supply – time-series planning
13	Lesson: Exploring SAP IBP for response and supply
13	Lesson: Evaluating the available planning algorithms in SAP IBP for response and supply
13	Lesson: Evaluating the Planning Algorithms for time-series finite heuristic
13	Lesson: Analyzing the Planning Algorithms for time-series optimizer
13	Lesson: Differentiating the Synchronized Planning with S/4 Hana, embedded PP/DS
15	Unit 8: Discovering SAP IBP for response and supply – order-based planning
15	Lesson: Evaluating of SAP IBP for response and supply - order-based planning
15	Lesson: Analyzing SAP IBP response and supply business planning processes in order-based planning
15	Lesson: Exploring Business Coverage and Integration Overview of SAP IBP for response and supply - order-based planning

17 Unit 9: Discovering SAP Supply Chain Control Tower

17 Lesson: Enhancing Supply Chain Decision-Making

17 Lesson: Optimizing Custom Alerts in SAP Supply Chain Control Tower

17 Lesson: Navigating Case Management in SAP Supply Chain Control Tower

17 Lesson: Analyzing Intelligent Visibility in SAP Supply Chain Control Tower

17 Lesson: Leveraging Business Network Collaboration in SAP Supply Chain Control Tower

Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Project Stakeholder
- Application Consultant
- End User
- Super / Key / Power User
- Business User
- User

Lesson 1: Introduction to Integrated Planning

Lesson Objectives

After completing this lesson, you will be able to:

- Outline processes covered by SAP Integrated Business Planning solution

Lesson 2: Process Coverage and Planning Levels

Lesson Objectives

After completing this lesson, you will be able to:

- Describe Planning Processes and Planning Levels within the Supply Chain Planning Matrix.

Lesson 3: SAP Best Practices and Model Entities for SAP IBP

Lesson Objectives

After completing this lesson, you will be able to:

- Leverage SAP Best Practices for SAP IBP.

Lesson 4: Harmonized Planning Area

Lesson Objectives

After completing this lesson, you will be able to:

- Understand the Logic Behind Harmonized Planning Area.

Lesson 5: Benefits and Key Performance Indicators (KPIs) Improved through SAP Integrated Business Planning

Lesson Objectives

After completing this lesson, you will be able to:

- Identify SAP IBP benefits.

Lesson 1: Modules Overview

Lesson Objectives

After completing this lesson, you will be able to:

- Describe SAP Integrated Business Planning modules.

Lesson 2: A Double-Click on Each of the Modules

Lesson Objectives

After completing this lesson, you will be able to:

- Explain Planning Processes and Levels covered through SAP IBP.

Lesson 3: Challenges and Solutions

Lesson Objectives

After completing this lesson, you will be able to:

- Map Supply Chain challenges with the SAP IBP solution.

Lesson 4: Example Network Overview

Lesson Objectives

After completing this lesson, you will be able to:

- Illustrate a Supply Chain scenario.

Lesson 1: Navigating the basics of SAP Fiori Launchpad

Lesson Objectives

After completing this lesson, you will be able to:

- Navigate the basics of SAP Fiori Launchpad.

Lesson 2: Experimenting with basic toolbar and functionality settings in the SAP IBP Add-in for Microsoft Excel

Lesson Objectives

After completing this lesson, you will be able to:

- Experiment with basic toolbar and functionality settings in the SAP IBP Add-in for Microsoft Excel.

Lesson 3: Modifying planning view options displayed within SAP IBP Add-In for Microsoft Excel Planning View.

Lesson Objectives

After completing this lesson, you will be able to:

- Modify planning view options displayed within SAP IBP Add-In for Microsoft Excel Planning View.

Lesson 4: Organizing and managing Master Data with SAP IBP

Lesson Objectives

After completing this lesson, you will be able to:

- Organize and managing Master Data with SAP IBP.

Lesson 5: Utilizing the Analytics and Dashboards to provide reports and KPIs.

Lesson Objectives

After completing this lesson, you will be able to:

- Utilize the Analytics and Dashboards to provide reports and KPIs. 1.

Lesson 6: Exploring Analytics Stories App

Lesson Objectives

After completing this lesson, you will be able to:

- Explore Analytics Stories App.

Lesson 7: Breaking down the various functionalities of the Planner Workspaces App

Lesson Objectives

After completing this lesson, you will be able to:

- Break down the various functionalities of the Planner Workspaces App.

Lesson 1: Introducing SAP IBP for demand

Lesson Objectives

After completing this lesson, you will be able to:

- Apply SAP IBP to optimize their supply chain functions and improve demand management processes.

Lesson 2: Outlining Demand Planning

Lesson Objectives

After completing this lesson, you will be able to:

- Use SAP Integrated Business Planning to manage and optimize both strategic and operational demand planning processes.

Lesson 3: Generating a Statistical Forecast

Lesson Objectives

After completing this lesson, you will be able to:

- Explain Statistical Forecast in the Demand Planning process.

Lesson 4: Explaining Planning Adjustments and Consensus

Lesson Objectives

After completing this lesson, you will be able to:

- Explain Planning Adjustments and Consensus in the Demand Planning process.

Lesson 5: Introducing Demand Sensing

Lesson Objectives

After completing this lesson, you will be able to:

- Use SAP IBP's demand sensing for optimized daily forecasts.

Lesson 1: Defining Inventory Planning and Optimization

Lesson Objectives

After completing this lesson, you will be able to:

- Determine the most appropriate placement of Inventory Planning and Optimization within the SAP IBP solution to support client requirements effectively.

Lesson 2: Understanding Inventory Planning

Lesson Objectives

After completing this lesson, you will be able to:

- Understand key concepts in Inventory Planning.

Lesson 3: Understanding Inventory Optimization

Lesson Objectives

After completing this lesson, you will be able to:

- Define Inventory Optimization.

Lesson 4: Discovering Added value to your Integrated Business Planning through Inventory Optimization

Lesson Objectives

After completing this lesson, you will be able to:

- Analyze inventory management processes and evaluate the potential benefits of implementing an inventory optimization strategy in terms of cost reduction, service level improvements, and overall supply chain efficiency.

Lesson 5: Understanding Key Differentiators of SAP IBP for inventory

Lesson Objectives

After completing this lesson, you will be able to:

- Analyze SAP Integrated Business Planning for Inventory's key features and differentiate its capabilities from other inventory management solutions.

Lesson 6: Implementing SAP IBP for inventory within SAP IBP

Lesson Objectives

After completing this lesson, you will be able to:

- Analyze the SAP Integrated Business Planning landscape and evaluate how SAP Integrated Business Planning for Inventory integrates with other modules.

Lesson 7: Utilizing Inventory Planning and Optimization

Lesson Objectives

After completing this lesson, you will be able to:

- Use SAP IBP to configure and execute optimization scenarios that determine the inventory levels required to achieve target service levels.

Lesson 1: Optimizing Supply Chain Planning Efficiency with SAP Integrated Business Planning

Lesson Objectives

After completing this lesson, you will be able to:

- Effectively use SAP Integrated Business Planning (IBP) tools to create initial supply and demand plans.

Lesson 2: Implementing Time-Series-Based Supply Planning with SAP IBP

Lesson Objectives

After completing this lesson, you will be able to:

- Apply time-series-based algorithms using SAP IBP tools to develop accurate supply and demand plans.

Lesson 3: Demand Planning capabilities with SAP IBP for sales and operations

Lesson Objectives

After completing this lesson, you will be able to:

- Use SAP IBP forecasting algorithms in the Manage Forecast Models application to generate accurate demand forecasts.

Lesson 4: Supply Planning with SAP IBP for sales and operations

Lesson Objectives

After completing this lesson, you will be able to:

- Describe Unconstrained Planning with the Sales and Operations heuristic.

Lesson 1: Exploring SAP IBP for response and supply

Lesson Objectives

After completing this lesson, you will be able to:

- Analyze and evaluate the main functionalities within SAP Integrated Business Planning for Response and Supply.

Lesson 2: Evaluating the available planning algorithms in SAP IBP for response and supply

Lesson Objectives

After completing this lesson, you will be able to:

- Integrate the main planning algorithms within SAP Integrated Business Planning for response and supply.

Lesson 3: Evaluating the Planning Algorithms for time-series finite heuristic

Lesson Objectives

After completing this lesson, you will be able to:

- Implement time-series finite heuristic.

Lesson 4: Analyzing the Planning Algorithms for time-series optimizer

Lesson Objectives

After completing this lesson, you will be able to:

- Apply time-series optimizer.

Lesson 5: Differentiating the Synchronized Planning with S/4 Hana, embedded PP/DS

Lesson Objectives

After completing this lesson, you will be able to:

- Analyze synchronized planning.

Lesson 1: Evaluating of SAP IBP for response and supply - order-based planning

Lesson Objectives

After completing this lesson, you will be able to:

- Examine the key components and functionalities of SAP IBP for response and supply, and explain how they contribute to optimizing order-based planning processes.

Lesson 2: Analyzing SAP IBP response and supply business planning processes in order-based planning

Lesson Objectives

After completing this lesson, you will be able to:

- Assess how SAP IBP's response and supply business planning processes enhance overall order-based planning efficiency and effectiveness.

Lesson 3: Exploring Business Coverage and Integration Overview of SAP IBP for response and supply - order-based planning

Lesson Objectives

After completing this lesson, you will be able to:

- Appraise the scope and integration capabilities of SAP IBP's response and supply business planning processes within the organization's overall supply chain strategy.

Lesson 1: Enhancing Supply Chain Decision-Making

Lesson Objectives

After completing this lesson, you will be able to:

- Utilize the SAP Supply Chain Control Tower to enhance decision-making in supply chain operations by running scenario simulations and interpreting real-time analytics.

Lesson 2: Optimizing Custom Alerts in SAP Supply Chain Control Tower

Lesson Objectives

After completing this lesson, you will be able to:

- Configure and manage supply chain issues by setting up, customizing, and monitoring SAP Supply Chain Control Tower alerts, utilizing machine learning for dynamic alert adjustment.

Lesson 3: Navigating Case Management in SAP Supply Chain Control Tower

Lesson Objectives

After completing this lesson, you will be able to:

- Utilize SAP Supply Chain Control Tower's Case Management to create, track, and resolve supply chain issues, leveraging real-time data and systematic documentation for continuous improvement.

Lesson 4: Analyzing Intelligent Visibility in SAP Supply Chain Control Tower

Lesson Objectives

After completing this lesson, you will be able to:

- Leverage the Intelligent Visibility functionality within the SAP Supply Chain Control Tower to enhance transparency, predict potential supply chain issues, and foster collaboration through customized data views and predictive analytics.

Lesson 5: Leveraging Business Network Collaboration in SAP Supply Chain Control Tower

Lesson Objectives

After completing this lesson, you will be able to:

- Utilize the SAP Supply Chain Control Tower's Business Network Collaboration functionality, enabling enhanced real-time collaboration, risk management, and decision-making.
