Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Application Consultant
- Business Process Architect
- Business Process Owner/Team Lead/Power User
- Solution Architect
- User

UNIT 1

Introducing SAP Supply Chain Control Tower

Lesson 1: Enhancing Supply Chain Decision-Making

Lesson Objectives

After completing this lesson, you will be able to:

- Effectively utilize the SAP Supply Chain Control Tower to enhance decision-making in supply chain operations by running scenario simulations and interpreting real-time analytics.

Lesson 2: Optimizing Custom Alerts in SAP Supply Chain Control Tower

Lesson Objectives

After completing this lesson, you will be able to:

- Configure and manage supply chain issues by setting up, customizing, and monitoring SAP Supply Chain Control Tower alerts, utilizing machine learning for dynamic alert adjustment.

Lesson 3: Navigating Case Management in SAP Supply Chain Control Tower

Lesson Objectives

After completing this lesson, you will be able to:

- Efficiently utilize SAP Supply Chain Control Tower's Case Management to create, track, and resolve supply chain issues, leveraging real-time data and systematic documentation for continuous improvement.

Lesson 4: Analyzing Intelligent Visibility in SAP Supply Chain Control Tower

Lesson Objectives

After completing this lesson, you will be able to:

- Leverage the Intelligent Visibility functionality within the SAP Supply Chain Control Tower to enhance transparency, predict potential supply chain issues, and foster collaboration through customized data views and predictive analytics.

Lesson 5: Leveraging Business Network Collaboration in SAP Supply Chain Control Tower

Lesson Objectives

After completing this lesson, you will be able to:

- Effectively utilize the SAP Supply Chain Control Tower's Business Network Collaboration functionality, enabling enhanced real-time collaboration, risk management, and decision-making

UNIT 2

Creating Dashboards and Analytics

Lesson 1: Creating Dashboards and Analytics

Lesson Objectives

After completing this lesson, you will be able to:

- Create dashboards and analytics

Lesson 1: Creating Custom Alerts

Lesson Objectives

After completing this lesson, you will be able to:

- Create custom alerts

UNIT 4

Using Case Management

Lesson 1: Using Case Management

Lesson Objectives

After completing this lesson, you will be able to:

- Understand the functionality of Case Management

UNIT 5

Providing Transparency with Intelligent Visibility

Lesson 1: Providing Transparency with Intelligent Visibility

Lesson Objectives

After completing this lesson, you will be able to:

- Understand the Intelligent Visibility app

UNIT 6

Managing Navigation to Other Systems

Lesson 1: Creating and Using Navigation to Other Systems

Lesson Objectives

After completing this lesson, you will be able to:

- Explain how to set up navigation from SAP Integrated Business Planning applications to other systems

Lesson 2: Understanding Technical Integration Topics

Lesson Objectives

After completing this lesson, you will be able to:

- Understand additional integration scenarios

UNIT 7

Modelling Business Network Collaboration and Alerts

Lesson 1: Understanding Business Network Collaboration and Alerts

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the concept of sharing information with a network of suppliers
