© Copyright. All rights reserved.

UNIT 1 Overview of Engineering Change Management

Lesson 1: Introducing Engineering Change Management

Lesson Objectives

After completing this lesson, you will be able to:

- give an overview of Engineering Change Management.

© Copyright. All rights reserved.

© Copyright. All rights reserved.

UNIT 2 Change Master

Lesson 1: Working with a Change Master

Lesson Objectives

After completing this lesson, you will be able to:

- work with a Change Master.

Lesson 2: Selecting objects with the Product Structure Browser

Lesson Objectives

After completing this lesson, you will be able to:

- select objects with the Product Structure Browser.

© Copyright. All rights reserved.

© Copyright. All rights reserved.

UNIT 3 Object Changes

Lesson 1: Performing object changes

Lesson Objectives

After completing this lesson, you will be able to:

- perform object changes.

Lesson 2: Performing object changes with a Revision Level

Lesson Objectives

After completing this lesson, you will be able to:

- perform object changes with a Revision Level.

Lesson 3: Working with alternative dates and shifts

Lesson Objectives

After completing this lesson, you will be able to:

- work with alternative dates and shifts.

Lesson 4: Reporting with the Information System

Lesson Objectives

After completing this lesson, you will be able to:

- report with the Information System and analyze object changes inside the Change Number.
