vii **Course Overview**

1 Unit 1: Implementation Guide and Customizing Projects

1 Lesson: Defining Customizing Projects

3 Unit 2: General Settings

3 Lesson: Checking Countries and Currencies

3 Lesson: Defining Units of Measurement

3 Lesson: Setting Up a Factory Calendar

5 Unit 3: Organizational Units

5 Lesson: Defining Organizational Units in Materials Management

5 Lesson: Defining and Assigning Plants

7 Unit 4: Master Data

7 Lesson: Setting Up Material Master Records

7 Lesson: Creating Material Types

7 Lesson: Setting Up Field Selection for Material Master Records

7 Lesson: Defining Field References for Material Master Records

7 Lesson: Configuring the Material Master

7 Lesson: Defining Settings for Business Partners

9 Unit 5: Valuation and Account Assignment

9 Lesson: Describing Automatic Account Determination

9 Lesson: Determining the Relevance of Company Codes and Valuation Areas

9 Lesson: Creating Valuation Classes and Account Category References

9 Lesson: Setting Up Account Determination for Specific Transactions

9 Lesson: Subdividing a Transaction with the Account Grouping Code

10 Lesson: Adjusting Account Determination for Special Cases

10 Lesson: Adjusting Settings for Split Valuation

11 Unit 6: Purchasing

11	Lesson: Creating Document Types in Purchasing
11	Lesson: Using Document Types in Purchasing
11	Lesson: Adjusting the Screen Layout of Purchasing Documents
11	Lesson: Creating Account Assignment Categories
11	Lesson: Defining Text Types and Text Adoption
11	Lesson: Specifying Texts for Output Processing
12	Lesson: Controlling the Output of Messages in Purchasing
12	Lesson: Exploring Customizing for Message Determination in Detail
12	Lesson: Explaining the SAP S/4 HANA Output Management

13 Unit 7: Inventory Management

13	Lesson: Adjusting Settings for Material and Accounting Documents
13	Lesson: Adjusting Settings for Goods Movements
13	Lesson: Adjusting the Output of Messages in Inventory Management

Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Application Consultant
- Super / Key / Power User

Lesson 1: Defining Customizing Projects

Lesson Objectives

After completing this lesson, you will be able to:

- Define a Customizing project

Lesson 1: Checking Countries and Currencies

Lesson Objectives

After completing this lesson, you will be able to:

- Define countries and currencies

Lesson 2: Defining Units of Measurement

Lesson Objectives

After completing this lesson, you will be able to:

- Define a unit of measurement

Lesson 3: Setting Up a Factory Calendar

Lesson Objectives

After completing this lesson, you will be able to:

- Set up a factory calendar

Lesson 1: Defining Organizational Units in Materials Management

Lesson Objectives

After completing this lesson, you will be able to:

- Define organizational units in accounting and purchasing

Lesson 2: Defining and Assigning Plants

Lesson Objectives

After completing this lesson, you will be able to:

- Define and assign plants

Lesson 1: Setting Up Material Master Records

Lesson Objectives

After completing this lesson, you will be able to:

- Define basic settings for material master records

Lesson 2: Creating Material Types

Lesson Objectives

After completing this lesson, you will be able to:

- Create material types

Lesson 3: Setting Up Field Selection for Material Master Records

Lesson Objectives

After completing this lesson, you will be able to:

- Configure field selection for material master records

Lesson 4: Defining Field References for Material Master Records

Lesson Objectives

After completing this lesson, you will be able to:

- Define field references for material master records

Lesson 5: Configuring the Material Master

Lesson Objectives

After completing this lesson, you will be able to:

- Configure the material master

Lesson 6: Defining Settings for Business Partners

Lesson Objectives

After completing this lesson, you will be able to:

- Define settings for vendor master records

Lesson 1: Describing Automatic Account Determination

Lesson Objectives

After completing this lesson, you will be able to:

- Introduce automatic account determination

Lesson 2: Determining the Relevance of Company Codes and Valuation Areas

Lesson Objectives

After completing this lesson, you will be able to:

- Determine the relevance of company codes and valuation areas

Lesson 3: Creating Valuation Classes and Account Category References

Lesson Objectives

After completing this lesson, you will be able to:

- Create valuation classes and account category references

Lesson 4: Setting Up Account Determination for Specific Transactions

Lesson Objectives

After completing this lesson, you will be able to:

- Set up account determination for specific transactions

Lesson 5: Subdividing a Transaction with the Account Grouping Code

Lesson Objectives

After completing this lesson, you will be able to:

- subdivide a transaction with the account grouping code

Lesson 6: Adjusting Account Determination for Special Cases

Lesson Objectives

After completing this lesson, you will be able to:

- Adjust account determination for special cases

Lesson 7: Adjusting Settings for Split Valuation

Lesson Objectives

After completing this lesson, you will be able to:

- Adjust the settings for split valuation

Lesson 1: Creating Document Types in Purchasing

Lesson Objectives

After completing this lesson, you will be able to:

- Create document types in Purchasing

Lesson 2: Using Document Types in Purchasing

Lesson Objectives

After completing this lesson, you will be able to:

- Use document types in Purchasing

Lesson 3: Adjusting the Screen Layout of Purchasing Documents

Lesson Objectives

After completing this lesson, you will be able to:

- Adjust the screen layout of purchasing documents

Lesson 4: Creating Account Assignment Categories

Lesson Objectives

After completing this lesson, you will be able to:

- Create account assignment categories

Lesson 5: Defining Text Types and Text Adoption

Lesson Objectives

After completing this lesson, you will be able to:

- Define text types and text adoption

Lesson 6: Specifying Texts for Output Processing

Lesson Objectives

After completing this lesson, you will be able to:

- Specify texts for output processing

Lesson 7: Controlling the Output of Messages in Purchasing

Lesson Objectives

After completing this lesson, you will be able to:

- Activate the required output solution

Lesson 8: Exploring Customizing for Message Determination in Detail

Lesson Objectives

After completing this lesson, you will be able to:

- Configure message determination (NAST)

Lesson 9: Explaining the SAP S/4 HANA Output Management

Lesson Objectives

After completing this lesson, you will be able to:

- Explain SAP S/4HANA output management

Lesson 1: Adjusting Settings for Material and Accounting Documents

Lesson Objectives

After completing this lesson, you will be able to:

- Adjust settings for material and accounting documents

Lesson 2: Adjusting Settings for Goods Movements

Lesson Objectives

After completing this lesson, you will be able to:

- Adjust settings for goods movements

Lesson 3: Adjusting the Output of Messages in Inventory Management

Lesson Objectives

After completing this lesson, you will be able to:

- Adjust the output of messages in Inventory Management
