vii **Course Overview**

1 Unit 1: Transportation Management as Part of SAP S/4HANA Enterprise Management

1 Lesson: Describing SAP S/4HANA Enterprise Management: Motivation and Overview

1 Lesson: Explaining Basic and Advanced Transportation Management (TM)

3 Unit 2: New User Experience – Working with TM

3 Lesson: Describing the SAP Fiori UX Strategy

3 Lesson: Using Worklists in TM

5 Unit 3: Master Data for Logistical Processes

5 Lesson: Creating Business Partners

5 Lesson: Creating the Transportation Network

5 Lesson: Explaining Organizational Units

7 Unit 4: Creation of Transportation Requirements

7 Lesson: Defining Transportation Relevance

7 Lesson: Creating Freight Units

7 Lesson: Defining Conditions

9 Unit 5: Transportation Planning

9 Lesson: Creating Freight Orders and Freight Bookings

9 Lesson: Subcontracting to Carriers

11 Unit 6: Transportation Execution

11 Lesson: Describing Freight and Transport Execution

11 Lesson: Creating (Print) Freight Documents

11 Lesson: Exploring Warehouse Integrations

13 Unit 7: Settle Transportation Charges and Distribute Costs

13 Lesson: Describing Charge Calculation Master Data

13 Lesson: Calculating Transportation Charges

13 Lesson: Settling Transportation Charges with Carriers

13 Lesson: Distributing Transportation Costs

15 Unit 8: Outlook – Advanced Transportation

15 Lesson: Describing Advanced Transportation Management

Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Project Manager
- Project Stakeholder
- Application Consultant
- Industry / Business Analyst Consultant
- Business User
- Business Analyst

Lesson 1: Describing SAP S/4HANA Enterprise Management: Motivation and Overview

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the motivation behind SAP S/4HANA Enterprise Management
- Describe the main components of SAP S/4HANA Enterprise Management

Lesson 2: Explaining Basic and Advanced Transportation Management (TM)

Lesson Objectives

After completing this lesson, you will be able to:

- Explain how LE-TRA relates to basic shipping
- Describe the differences between basic shipping and advanced transportation management

Lesson 1: Describing the SAP Fiori UX Strategy

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the SAP UX strategy based on SAP Fiori
- Explain the elements of personalization within SAP Fiori

Lesson 2: Using Worklists in TM

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the screen layout of worklists
- Create a query to filter transportation requirements

Lesson 1: Creating Business Partners

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the role of business partners
- Create business partners for customers and carriers

Lesson 2: Creating the Transportation Network

Lesson Objectives

After completing this lesson, you will be able to:

- List the master data elements supporting the different activities in TM
- List the master data elements that define the transportation network
- Create locations, transportation zones, and transportation lanes

Lesson 3: Explaining Organizational Units

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the purpose of organizational structures
- Maintain the link between MM organizations and TM organizations

Lesson 1: Defining Transportation Relevance

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the overall transportation process
- Explain SAP ERP logistics integration
- Describe the integration of SAP ERP deliveries
- Determine routing based on Incoterms

Lesson 2: Creating Freight Units

Lesson Objectives

After completing this lesson, you will be able to:

- Define freight unit types
- Create freight units and freight unit building rules

Lesson 3: Defining Conditions

Lesson Objectives

After completing this lesson, you will be able to:

- Determine the conditions used to customize a business process
- Display a condition

Lesson 1: Creating Freight Orders and Freight Bookings

Lesson Objectives

After completing this lesson, you will be able to:

- Define freight order types
- Create freight orders for road transportation
- Explain and configure the short-cut process

Lesson 2: Subcontracting to Carriers

Lesson Objectives

After completing this lesson, you will be able to:

- Assign carriers to freight orders
- Explain status changes in the carrier assignment process

Lesson 1: Describing Freight and Transport Execution

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the freight and transport execution process in transportation management
- Understand the integration in SAP S/4HANA and basic shipping in transportation execution processes

Lesson 2: Creating (Print) Freight Documents

Lesson Objectives

After completing this lesson, you will be able to:

- Check relevant customizing for BOPF PPF Settings
- Generate outputs for your freight order and preview the documents
- Understand the Output Management in Basic Shipping

Lesson 3: Exploring Warehouse Integrations

Lesson Objectives

After completing this lesson, you will be able to:

- Pick and load the demands on the delivery
- Post goods issue for the deliveries

Lesson 1: Describing Charge Calculation Master Data

Lesson Objectives

After completing this lesson, you will be able to:

- Describe a freight agreement in transportation charge management
- Display the elements of a charge calculation sheet
- Describe rate tables in charge management
- Display a scale

Lesson 2: Calculating Transportation Charges

Lesson Objectives

After completing this lesson, you will be able to:

- Calculate transportation charges

Lesson 3: Settling Transportation Charges with Carriers

Lesson Objectives

After completing this lesson, you will be able to:

- Generate a freight settlement document
- Post freight charges to MM
- Verify freight invoices

Lesson 4: Distributing Transportation Costs

Lesson Objectives

After completing this lesson, you will be able to:

- Distribute freight costs

Lesson 1: Describing Advanced Transportation Management

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the functionality included in Advanced Transportation
