vii	Course Overview	
1	**Unit 1:**	**SAP Strategic Overview**
1		Lesson: Describing the SAP Strategy
1		Lesson: Describing SAP Business Technology Platform
3	**Unit 2:**	**SAP Systems**
3		Lesson: Describing the Architecture of SAP Systems
5	**Unit 3:**	**Navigation**
5		Lesson: Describing SAP GUI and SAP Logon
5		Lesson: Describing SAP GUI Functions, Help, and Personalization
5		Lesson: Describing Navigation using a Web Browser
5		Lesson: Describing SAP Business Client
6		Lesson: Describing SAP Fiori
7	**Unit 4:**	**SAP System Kernel**
7		Lesson: Explaining the Basic Architecture of AS ABAP and AS Java
7		Lesson: Describing AS ABAP
7		Lesson: Describing AS Java
9	**Unit 5:**	**Software Development in SAP Systems**
9		Lesson: Describing the Data Structure of an AS ABAP Based SAP System
9		Lesson: Describing Software Logistics for AS ABAP based SAP systems
9		Lesson: Accessing and Editing ABAP Repository Objects
9		Lesson: Importing Transport Requests into AS ABAP based SAP Systems
10		Lesson: Appendix: Transporting non-ABAP Objects
10		Lesson: Appendix: Basic Software Development Concepts for the Cloud
10		Lesson: Appendix: Describing SAP UI Technologies
11	**Unit 6:**	**Communication and Integration Technologies**
11		Lesson: Describing Remote Function Calls and BAPIs
11		Lesson: Explaining Cross-System Business Processes
11		Lesson: Explaining HTTP Based Communication
11		Lesson: Describing Web Services
11		Lesson: Describing SAP Gateway

© Copyright. All rights reserved.

13	**Unit 7:**	**Application Lifecycle Management**
13		Lesson: Describing Application Lifecycle Management
13		Lesson: Implementing Business Processes and Installing SAP Systems
13		Lesson: Describing Business Process Operations
13		Lesson: Maintaining SAP Systems
15	**Unit 8:**	**SAP Maintenance and Release Strategy**
15		Lesson: Describing the SAP Release Strategy
17	**Unit 9:**	**Additional SAP Web Sites**
17		Lesson: SAP for Me
17		Lesson: SAP Help Portal
17		Lesson: SAP Community and SAP Tutorial Navigator
17		Lesson: SAP Road Map Explorer
17		Lesson: SAP Discovery Center
17		Lesson: SAP Learning Offerings

Course Overview

TARGET AUDIENCE
This course is intended for the following audiences:

- Systems Architect
- Technology Consultant
- Developer IT Adminstrator IT Support
- Developer

© Copyright. All rights reserved.

© Copyright. All rights reserved.

UNIT 1 SAP Strategic Overview

Lesson 1: Describing the SAP Strategy

Lesson Objectives

After completing this lesson, you will be able to:

- List SAP's key areas of innovation and development
- Summarize SAP's Intelligent Enterprise
- Describe product variants of SAP S/4HANA
- Paraphrase RISE with SAP
- Paraphrase GROW with SAP

Lesson 2: Describing SAP Business Technology Platform

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the positioning of SAP Business Technology Platform

© Copyright. All rights reserved.

© Copyright. All rights reserved.

UNIT 2 SAP Systems

Lesson 1: Describing the Architecture of SAP Systems

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the terms SAP Business Suite and SAP S/4HANA and describe their difference with respect to the data model
- Describe the Client/Server Architecture of SAP Systems

© Copyright. All rights reserved.

© Copyright. All rights reserved.

UNIT 3 Navigation

Lesson 1: Describing SAP GUI and SAP Logon

Lesson Objectives

After completing this lesson, you will be able to:

- List the Variants of the SAP GUI and explain their use
- Describe the steps to log on to an ABAP-based SAP System
- List screen elements used in SAP GUI
- Describe the process of logging off from an AS ABAP based SAP system

Lesson 2: Describing SAP GUI Functions, Help, and Personalization

Lesson Objectives

After completing this lesson, you will be able to:

- Create a List of Favorites in SAP GUI
- Use various methods in SAP GUI to start functions in the SAP system
- Use the Help Functions that SAP GUI offers
- Outline personalization options in SAP GUI

Lesson 3: Describing Navigation using a Web Browser

Lesson Objectives

After completing this lesson, you will be able to:

- Use a Web Browser to work with an AS ABAP-based SAP system
- Use a Web Browser to work with an AS Java-based SAP system

Lesson 4: Describing SAP Business Client

Lesson Objectives

After completing this lesson, you will be able to:

- Use SAP Business Client for Windows

© Copyright. All rights reserved.

Lesson 5: Describing SAP Fiori

Lesson Objectives

After completing this lesson, you will be able to:

- Explore the concept of SAP Fiori
- Operate the SAP Fiori launchpad
- Explain the structure of the SAP Fiori launchpad
- Personalize My Home.

© Copyright. All rights reserved.

UNIT 4 SAP System Kernel

Lesson 1: Explaining the Basic Architecture of AS ABAP and AS Java

Lesson Objectives

After completing this lesson, you will be able to:

- List the main ingredients of the application layer of AS ABAP or AS Java based SAP systems
- Explain the architecture of the application layer for an AS ABAP based SAP system
- Describe the architecture of the application layer for an AS Java based SAP system

Lesson 2: Describing AS ABAP

Lesson Objectives

After completing this lesson, you will be able to:

- Illustrate the processing of user requests in AS ABAP based SAP systems
- List the processes of an AS ABAP and explain their meaning
- List important transactions to administrate AS ABAP and outline their use

Lesson 3: Describing AS Java

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the processing of user requests in AS Java based SAP systems
- List the processes of an AS Java and explain their use
- List the main tools for the administration of AS Java and outline their use

© Copyright. All rights reserved.

© Copyright. All rights reserved.

UNIT 5 Software Development in SAP Systems

Lesson 1: Describing the Data Structure of an AS ABAP Based SAP System

Lesson Objectives

After completing this lesson, you will be able to:

- Discuss the data structure of an SAP system based on AS ABAP

Lesson 2: Describing Software Logistics for AS ABAP based SAP systems

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the need for a multi-system landscape
- Describe the procedure for transports within an AS ABAP based SAP system landscape
- Describe the meaning of transport requests and the procedure for transports within an AS ABAP based SAP system landscape

Lesson 3: Accessing and Editing ABAP Repository Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Compare different options to adjust the data structure in an AS ABAP based SAP system
- List tools of the ABAP Workbench that support the software development cycle
- Explain the significance of the ABAP Dictionary
- Use ABAP development tools to access and edit ABAP repository objects

Lesson 4: Importing Transport Requests into AS ABAP based SAP Systems

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the difference between the single import and the mass import of transport requests

© Copyright. All rights reserved.

Lesson 5: Appendix: Transporting non-ABAP Objects

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize the concept of the enhanced CTS
- Outline the basic idea of the SAP Cloud Transport Management Service

Lesson 6: Appendix: Basic Software Development Concepts for the Cloud

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize the different developer roles in cloud development
- Outline software development tools and concpets for the cloud

Lesson 7: Appendix: Describing SAP UI Technologies

Lesson Objectives

After completing this lesson, you will be able to:

- Classify SAP UI technologies chronologically

© Copyright. All rights reserved.

UNIT 6 Communication and Integration Technologies

Lesson 1: Describing Remote Function Calls and BAPIs

Lesson Objectives

After completing this lesson, you will be able to:

- List interface technologies used by SAP systems
- Explain the process flow for a Remote Function Call
- Explain the significance and use of business objects and BAPIs

Lesson 2: Explaining Cross-System Business Processes

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the Concept of Application Link Enabling

Lesson 3: Explaining HTTP Based Communication

Lesson Objectives

After completing this lesson, you will be able to:

- Outline the concept of HTTP-based communication and the Internet Communication Framework

Lesson 4: Describing Web Services

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the Web service paradigm
- List the steps to create a Web service using the inside-out approach and synchronous communication

Lesson 5: Describing SAP Gateway

Lesson Objectives

After completing this lesson, you will be able to:

© Copyright. All rights reserved.

- Explain OData
- Explain SAP Gateway
- Test an SAP Gateway Service

© Copyright. All rights reserved.

UNIT 7 Application Lifecycle Management

Lesson 1: Describing Application Lifecycle Management

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize the Concept of Application Lifecycle Management
- Compare the SAP offerings for ALM
- Explain the importance of the SAP Solution Manager system and of SAP Cloud ALM for Application Lifecycle Management
- Illustrate the data transfer flow from the technical systems to SAP Support Backbone and to monitoring applications
- Describe the use of the launchpad as central entry point for end users working in ALM

Lesson 2: Implementing Business Processes and Installing SAP Systems

Lesson Objectives

After completing this lesson, you will be able to:

- Give examples how SAP Cloud ALM and SAP Solution Manager supports the implementation of business processes in SAP system landscapes
- Explain the concept of SAP Activate
- Discuss typical questions that occur before and during an SAP system installation
- Outline the different documentation types and name the installation tool

Lesson 3: Describing Business Process Operations

Lesson Objectives

After completing this lesson, you will be able to:

- Give examples how SAP Cloud ALM and SAP Solution Manager support the operation of business processes in SAP system landscapes

Lesson 4: Maintaining SAP Systems

Lesson Objectives

© Copyright. All rights reserved.

After completing this lesson, you will be able to:

- Classify different levels of system maintenance
- List tools for the maintenance of SAP Systems and explian their use
- List options for the migration to SAP S/4HANA

© Copyright. All rights reserved.

UNIT 8 SAP Maintenance and Release Strategy

Lesson 1: Describing the SAP Release Strategy

Lesson Objectives

After completing this lesson, you will be able to:

- Describe the SAP maintenance strategy

© Copyright. All rights reserved.

© Copyright. All rights reserved.

UNIT 9 Additional SAP Web Sites

Lesson 1: SAP for Me

Lesson Objectives
After completing this lesson, you will be able to:

- List some services provided on SAP for Me

Lesson 2: SAP Help Portal

Lesson Objectives
After completing this lesson, you will be able to:

- Outline the benefits of SAP Help Portal

Lesson 3: SAP Community and SAP Tutorial Navigator

Lesson Objectives
After completing this lesson, you will be able to:

- List services offered by the SAP Community
- Outline the idea of the Tutorial Navigator on SAP Developer Center

Lesson 4: SAP Road Map Explorer

Lesson Objectives
After completing this lesson, you will be able to:

- Outline the idea of SAP Road Map Explorer

Lesson 5: SAP Discovery Center

Lesson Objectives
After completing this lesson, you will be able to:

- List capabilities of SAP Discovery Center

Lesson 6: SAP Learning Offerings

© Copyright. All rights reserved.

Lesson Objectives

After completing this lesson, you will be able to:

- Explain how to find the right training for you with the help of SAP Training Shop
- Describe the offerings of SAP Learning

© Copyright. All rights reserved.
