SAMPLE QUESTIONS: C_BO CR_13

SAP Certified Application Associate – Crystal Reports 2013

Disclaimer: These sample questions are for self-evaluation purposes only and do not appear on the actual certification exams. Answering the sample questions correctly is no guarantee that you will pass the certification exam. The certification exam covers a much broader spectrum of topics, so do make sure you have familiarized yourself with all topics listed in the exam competency areas before taking the certification exam.

Questions

1. You have a report containing European customers grouped by country. You combine Belgium, Holland, and Luxembourg using specified order grouping. On the 'Others' tab, you select 'Leave in their own groups'.

How are the customer records from all the other countries grouped in SAP Crystal Reports?
Please choose the correct answer.

a)	☐	They are combined into one group that is placed after the specified group.
b)	☐	They are combined into one group that is placed before the specified group.
c)	☐	They remain in individual groups that are placed after the specified group.
d)	☐	They remain in individual groups that are sorted alphabetically within the group.

2. Which of the following can you use to create formulas using the Formula Workshop in SAP Crystal Reports?

Note: There are 3 correct answers to this question.

a)	☐	Special fields
b)	☐	Functions
c)	☐	Operators
d)	☐	Object packages

e)	☐	Parameters

3. In SAP Crystal Reports, you design a report containing a text object with embedded data fields that vary in length.

How do you ensure that no data is truncated when the report is previewed?
Please choose the correct answer.

a)	☐	Create a conditional suppress formula for the text object.
b)	☐	Use the Format Formula editor to control the width of the embedded data fields.
c)	☐	Enable the Can Grow option for the text object.
d)	☐	Resize the embedded data fields to an appropriate width.
