## SAMPLE QUESTIONS: C\_TB1200\_92

SAP Certified Application Associate - SAP Business One Release 9.2

Disclaimer: These sample questions are for self-evaluation purposes only and do not appear on the actual certification exams. Answering the sample questions correctly is no guarantee that you will pass the certification exam. The certification exam covers a much broader spectrum of topics, so do make sure you have familiarized yourself with all topics listed in the exam competency areas before taking the certification exam.

### Questions

1. A company has added several user-defined fields (UDFs) to the business partner master data. Some users do NOT notice the fields in the side window.

What can the super user do to help these users?

Please choose the correct answer.

a)	<input type="radio"/>	Select the option to view user-defined fields for each user.
b)	<input type="radio"/>	Change the user authorization to full authorization for business partners.
c)	<input type="radio"/>	Create a UI Configuration Template and move the fields to the main window.
d)	<input type="radio"/>	Change the display setting for the side window in the general settings.

2. The accountant notices that there are open invoices in the system, although a payment was received.

What could have caused this problem?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	More than one payment means was used in the payment document.
b)	<input type="radio"/>	The invoices were not marked to be paid during the creation of the payment.
c)	<input type="radio"/>	The payment date was earlier than the due date of the invoices.
d)	<input type="radio"/>	No internal reconciliation was performed to close the invoices.

3. What can you do when working with multiple branches?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Issue a single goods return from multiple branches
b)	<input type="radio"/>	Define a different system currency for each branch
c)	<input type="radio"/>	Share master data records across branches
d)	<input type="radio"/>	Monitor inventory levels for each branch

4. What are the advantages of using the Express Configuration Wizard to create a new company database?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	The wizard presents the configuration settings in the recommended order.
b)	<input type="radio"/>	The wizard saves time because it is based on a pre-configured company database.
c)	<input type="radio"/>	The wizard automatically applies the recommended configuration settings.
d)	<input type="radio"/>	The wizard points out irreversible settings.

5. A company manufactures bead necklaces. The company also manufactures their own beads. All components are managed in the company's inventory.

How would you define the Bill of Materials (BOM) for a necklace?

Please choose the correct answer.

a)	<input type="radio"/>	Create two production BOMs; one for the beads and one for the necklace. The necklace BOM includes the beads BOM as a component item.
b)	<input type="radio"/>	Create a production BOM for the beads and create an assembly BOM for the necklace. Include the beads BOM as a component item in the necklace BOM.
c)	<input type="radio"/>	Create a phantom item for the beads and a production BOM for the necklace that includes this phantom item.
d)	<input type="radio"/>	Create a phantom item for the beads and create an assembly BOM that includes the phantom item and the necklace item.

6. Which data from a sales order row is used for a standard availability check?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	Shipping type
b)	<input type="radio"/>	Warehouse
c)	<input type="radio"/>	Document date
d)	<input type="radio"/>	Delivery date
e)	<input type="radio"/>	Item number and quantity

7. Your company sells sets of hardware tools. Each tool in the set is defined as an item in the system. You want to have a price for the set of hardware tools.

How do you define the set of hardware tools in the system?

Please choose the correct answer.

a)	<input type="radio"/>	Define the set as a phantom item.
b)	<input type="radio"/>	Define an item group for the items in the set.
c)	<input type="radio"/>	Create a sales bill of materials for the set.
d)	<input type="radio"/>	Assign all items to the same discount group.

8. How would you enter the name and contact information for a sales prospect into a SAP Business One company database?

Please choose the correct answer.

a)	<input type="radio"/>	Add a draft quotation
b)	<input type="radio"/>	Use a relationship map
c)	<input type="radio"/>	Create a lead
d)	<input type="radio"/>	Set up configuration data

9. You create an inventory transfer request for an item from Warehouse 1 (WH1) to Warehouse 2 (WH2). The transfer request subtracts the item quantity from the available stock in WH1 and adds it to available stock in WH2.

What other changes are made to inventory status of the requested item?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	In the issuing warehouse (WH1) the quantity is added to Ordered.
b)	<input type="radio"/>	In the issuing warehouse (WH1) the quantity is subtracted from In Stock.
c)	<input type="radio"/>	In the receiving warehouse (WH2) the quantity is added to Ordered.
d)	<input type="radio"/>	In the issuing warehouse (WH1) the quantity is added to Committed.

10. At what level must the bin location code be unique?

Please choose the correct answer.

a)	<input type="radio"/>	At the warehouse sub-level level
b)	<input type="radio"/>	At the warehouse level
c)	<input type="radio"/>	At the item level
d)	<input type="radio"/>	At the company level

11. What is the most important factor when determining the priority of a support incident?

Please choose the correct answer.

a)	<input type="radio"/>	The importance of the customer.
b)	<input type="radio"/>	The version and patch level that was tested.
c)	<input type="radio"/>	The business impact on the customer.
d)	<input type="radio"/>	The SAP Business One (SBO) incident component.

## Solutions

1 a) Incorrect	2 a) Incorrect	3 a) Incorrect	4 a) Correct	5 a) Correct
1 b) Incorrect	2 b) Correct	3 b) Incorrect	4 b) Incorrect	5 b) Incorrect
1 c) Correct	2 c) Incorrect	3 c) Correct	4 c) Incorrect	5 c) Incorrect
1 d) Incorrect	2 d) Correct	3 d) Correct	4 d) Correct	5 d) Incorrect

6 a) Incorrect	7 a) Incorrect	8 a) Incorrect	9 a) Incorrect	10 a) Incorrect
6 b) Correct	7 b) Incorrect	8 b) Incorrect	9 b) Incorrect	10 b) Incorrect
6 c) Incorrect	7 c) Correct	8 c) Correct	9 c) Correct	10 c) Incorrect
6 d) Correct	7 d) Incorrect	8 d) Incorrect	9 d) Correct	10 d) Correct
6 e) Correct				

11 a) Incorrect
11 b) Incorrect
11 c) Correct
11 d) Incorrect
